

Argus RGB-600W – Your RGB-Power supply!

The Argus 600W RGB-Power supply convinces due to the great light effects of the smooth running 140mm fan. 21 ultra-bright LEDs in the ring of the fan can be switched through various colors with a button in the rear. Further the colors can switch automatically or you can put the controls to the front panel with cables (reset button for example). The side panel made of acrylic glass gives a great view inside and the Argus logo is a nice eye catcher.

Certificated with 80PLUS® Bronze, and equipped with active PFC and 2x PCI-E connectors the **Argus 600W RGB** is the perfect choice for gaming or graphical computers. The durable black finish and the long and flexible cables complete the great offer.
