

ALSEYE MAX 240 – 240mm AiO water cooling

The MAX 240 AiO water cooling system of the ALSEYE MAX series impresses with its compact design and ensures, due to the cooling plate made of copper and the radiator made of pure aluminum, a reliable removal of the generated heat. Both 120mm PWM fans provide a reliable heat removal at up to 1800rpm.

The pump with high-quality ceramic bearing, as well as the high-quality sleeved, pivoting FEP tubes with 300mm length ensure safe, reliable and long-lasting operation.

- ✓ AiO water cooling with compact design
- ✓ High quality materials made of copper and aluminum
- ✓ Two strong 120mm PWM fans
- ✓ TDP up to 250W
