

Multicardreader CI-01 with USB 3.0 port – your "data interface" in handy format.

You only need one free 3.5" bay to have another helpful component in your computer.

The **CI-01** can read almost all popular memory cards (see Specifications) and reach a maximal data transfer rate of 480Mbit/s. Furthermore you have an integrated USB 3.0 socket to transfer data with 5Gbit/s.

The connection is made via an internal 19pin USB 3.0 connector.
