Argus GD-PD05U –
Docking station with back up function!

The external docking station **Argus GD-PD05U** convinces due to its brushed aluminum case and is a real multi-talent in the matter of technics.

With the **Argus GD-PD05U** you can easy transfer data from a 2.5" or 3.5" HDD/SSD and also from up to three external USB 3.0 devices to your computer. The integrated 3 x USB 3.0 Hub is also used as a charging station for external devices like Smartphones or Tablets.

The integrated One-Touch-Backup (OTB) feature allows to copy individual files, data packages, folders or complete drives to a hard disk inside the docking station. This function can be chosen time-controlled, or manually by pushing the OTB-button in the front.
