### Argus CI-22 – Internal card reader for 3.5" drive bay

The **Argus CI-22** is a powerful internal card reader and USB hub for installation in a **3.5" drive bay**, expanding your PC with versatile storage and connectivity options. It combines versatile memory card compatibility with modern high-speed connections, making it the ideal front expansion for workstations, gaming PCs, and multimedia computers.

The card reader supports **dual SD and micro SD cards (UHS-I)** as well as **TF cards** and, thanks to **multi-LUN technology**, allows simultaneous access to multiple drives. This saves you time and allows you to work more efficiently – without having to reconnect anything.

The **Argus CI-22** also offers modern USB ports on the front:

One **USB-C port with up to 20Gb/s** and one **USB-C port with up to 5Gb/s** as well as two **USB-A ports with up to 5 Gbit/s** ensure fast data transfers and convenient access to external devices such as SSDs, USB sticks, or smartphones.

<b>Features</b>		Supports SD/ MicroSD/ TF cards Multi-Lun 1x USB C 3.2 Gen2x2 (20Gb/s) 1x USB C 3.2 Gen1 (5Gb/s) 2x USB A 3.2 Gen1 (5Gb/s)
<b>Dimension</b>		137 x 102 x 25 mm for 3.5" bays
<b>Scope of delivery</b>		Card Reader Cable 50cm USB 3.0 internal Manual
