Argus CI-21 – Internal card reader for 3.5" drive bay

The Argus CI-21 is a powerful internal card reader for installation in a 3.5" drive bay, expanding your PC with versatile storage and connection options. Ideal for users who regularly work with memory cards and fast USB devices.

The card reader supports **dual SD** and **micro SD cards (UHS-I)** as well as **TF cards** and, thanks to **multi-LUN technology**, allows simultaneous access to multiple drives. This saves you time and allows you to work more efficiently – without having to reconnect anything.

In addition, the Argus CI-21 offers modern **USB ports on the front**:

One USB-C port and **two USB-A ports** with up to **5 Gb/s** ensure fast data transfers and convenient access to external devices such as SSDs, USB sticks, or smartphones

Features		Supports SD/ MicroSD/ TF cards Multi-Lun 1x USB C 3.2 Gen1 (5Gb/s) 2x USB A 3.2 Gen1 (5Gb/s)
