Scope of delivery

- HDD enclosure
- USB Type C cable
- Screw driver
- Manual

Intended use

This product is only for indoor use and for mounting of hard disks and connecting to computers. Don't use or store this product close to water or in humid rooms.

Danger and protection

Don't apply external force to the device.
Don't use the device with wet hands (can cause damages).

In spite of a special process of production and careful controls some edges could be not polished. Please take care of that to avoid injuries.

Maintenance

The device needs generally no maintenance.
In case of dust or dirt clean it with a duster.

Disposal

If you wish to replace the product or need to dispose of it, please do not throw it away with your household trash; instead, take it to a designated collection point for used electrical appliances. If you have any questions,

please contact your local municipality or city administration, or ask your retailer. Please dispose of any cardboard and plastic packaging waste in the appropriate recycling bins for your household trash.

Warranty terms

Inter-Tech grants 12 months warranty by proper use up from the date of purchase. In case of warranty please contact your local dealer or the dealer from which you bought the product. Please look also at our complete warranty terms on our website www.inter-tech.de – Information – Warranty Terms.

Preparation

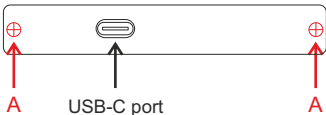

Take out the product and check the package content for completeness or damages. In case of missing parts or external damages, please contact your local dealer for replacement. Please keep the original package for shipping in case of warranty case.

Preparation

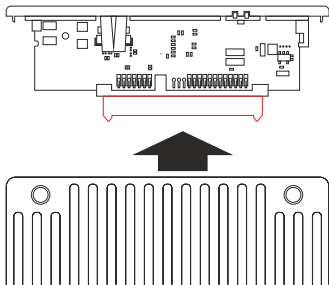

Take out the product and check the package content for completeness or damages. In case of missing parts or external damages, please contact your local dealer for replacement. Please keep the original package for shipping in case of warranty case.

Mounting the SSD

Loosen the two screws A on the side of the USB-C port using the screwdriver provided. Keep the screws in a safe place.

Remove the side panel of the case. Carefully connect the hard drive to the designated port on the back of the side panel.

Now slide the hard drive and the side panel into the case.

Fix the side panel using the screws you removed earlier.

Operating

Now connect the hard drive enclosure to a USB-C port on your computer using the included USB-C cable.

Hard drives that have already been formatted will be automatically recognized by the operating system.

If you are using a new, unused hard drive, it must first be formatted and partitioned.

Please refer to your computer's or motherboard's manual for instructions.

If this is not available or you are unfamiliar with the process, you should seek assistance from a professional.

Incorrect formatting and partitioning of the storage device can damage your operating system or delete important data.

FAQ

- The device is not recognized
 - a) Is the USB cable connected?
 - b) Is the hard drive formatted and partitioned?
 - c) Is the hard drive functioning properly?
 - d) Is the USB port functioning properly?

If none of the above applies, one of the components is defective. Take the hard drive enclosure, including all accessories, the hard drive, and your proof of purchase to your dealer to have the device checked for proper functioning. If any of the parts supplied by Inter-Tech are defective, they will be replaced for you, provided they are still within the warranty period.
