

Desktop cooler SU-200B

The SU-200B is compatible with the Intel® sockets LGA115x, 1200, 1366 and 1700. 38 aluminum fins and 4 double-sided 6mm copper heat pipes enable excellent cooling performance.

The 92mm fan with 4pin PWM connection can also be controlled depending on the temperature and cools CPUs with a max. TDP up to 115W. With a maximum of 25.0dBA, it remains whisper-quiet.

Thanks to the fixed screw connection with the enclosed backplate, it is the ideal candidate for system integrators who also attach great importance to security during transport or shipping.
