

## **MA-01-P Micro incl. SL-500K**

The MA-Series convinces with several mounting options in a small case. Besides space for up to six HDDs, removable cage parts underline the versatile equipping options. Rubber buffers in the mounting holes for 3.5" HDDs and dumped case feet ensure a quiet operation. As standard, a SL-500K Power Supply is also installed.

The **MA-01-P Micro** is equipped with one USB 3.0 and two USB 2.0 front connectors. A blue illuminated 120mm fan in the front and space for graphics cards with a length of 30.5cm complete the offer.
