

ITX JX-500

The JX-500 is a case for Mini-ITX mainboards with a brushed front panel and a USB 3.0 front connector. The standard DC converter board supports external 12V power supplies up to max. 10A (= 120W) and thus offers the possibility of configuring powerful systems in the smallest of spaces.

The JX-500 also offers the option of mounting it on the VESA mount behind the monitor using the integrated feet, or directly under the desk using the rails provided for attachment to the wall.

- ✓ USB 3.0 front connector
- ✓ DC converter board up to 12V/10A
- ✓ VESA and wall/desk mount
- ✓ brushed front panel

Specifications

Motherboard	ITX
Drive bays	2.5" internal: 1
Front connectors	USB 3.0: 1
Cooling system	-
Power input	For 12V plugs with dimension of 5.5x2.5x10.7mm
Max. CPU cooler height	45mm
Max. graphics card length	-
Packing units	Shipping unit: 1 Stück Packing unit: 10 Stück
Warranty	24 Months
Article number	88881283
EAN-Code	4260455641937
Scope of delivery	Screw Set Stand with VESA-Function Wall brackets
Features	USB 3.0 internal as flat cable

Dimensions and Weight

	Cage	Case	Package
Height	65mm	65mm	275mm
