

A-3401 Chevron – RGB gaming case

For all ambitious gamers, the A-3401 Chevron offers the ideal basis for a high-end gaming system. Thanks to the three integrated 120mm RGB fans, which are located behind the abstract acrylic glass front panel and can be controlled either via the reset button in the front or via the 5V RGB board, it skilfully stages itself. The standard built-in acrylic glass side panel offers insights into the built-in hardware and also enhances the entire system. A total of four RGB devices with 5V 3pin RGB headers and four 3pin fans can be connected to the integrated RGB / fan board, thus offering a variety of configuration and design options.

There is space for optional fans in the top and on the back, and two 120mm fans can also be installed above the power supply tunnel, which can contribute to waste heat and cooling. In the separate power supply tunnel, next to the power supply installation space, there is a removable hard disk cage that offers space for a 2.5" SSD and a 3.5" HDD. Dust filters in the top and bottom of the case, which are easy to remove and clean, keep the interior free of dust.

- ✓ 3x 120mm RGB fans as standard
- ✓ Acrylic glass front panel with an abstract pattern
- ✓ RGB/fan board for four RGB devices and four 3pin fans
- ✓ 3pin RGB header connection for 5V RGB mainboard control

Specifications

Motherboard	ATX, µATX, ITX
Max. drive bays	5.25" external: 0 3.5" external: 0 3.5" internal: 1 2.5" internal: 3
Front connectors	USB 3.0: 1 USB 2.0: 2 Microphone: 1 Speaker: 1
Cooling system	Front: 2x 140mm or 3x 120mm (3x 120mm serial, RGB, 3pin connector) Rear: 1x 120mm (optional) Top: 2x 120mm (optional) Power supply tunnel: 2x 120mm (optional)
Max CPU-Cooler height	160mm
Max Graphic card length	305mm
Packing units	Shipping unit: 1 pcs Packing unit: 24 pcs
Warranty	24 months
Article number	88881348
EAN-Code	4260455645959
Scope of delivery	Screw set Cable ties Speaker Manual (german, english)
Features	Front panel with acrylic glass and abstract pattern Window side part made of acrylic glass 3x 120mm RGB fans pre-installed in the front RGB/fan board for up to four RGB devices and four 3pin fans 3pin RGB header connection for 5V RGB mainboard control Separate 2.5" and 3.5" installation space in the power supply tunnel Two 120mm fan bays above the power supply tunnel Space for water cooling in the sizes 120mm, 240mm, 280mm* and 360mm Easy to remove dust filters in the bottom and in the top Power supply mounting decoupled in a separate cage in the base part Reusable slot plates Openings for easy cable laying

*only 2x 2.5" SSD possible
