

IP-60

The IP-60 is a case for Mini-ITX mainboards with external power supply and I/O shields in normal height.

Thanks to the closed design and the integrated cooling fins, it is the ideal candidate for a system with passive cooling. In conjunction with the optional IP-3 cooler, CPUs with a TDP of up to 70W can be installed and operated entirely without active fan elements. Alternatively, other CPU coolers up to 43mm in height can also be installed.

The case can be attached to almost any supporting surface (e.g. on the wall) using the standard mounting brackets, optionally using the additionally available VESA mount behind the monitor or as a standing device with four feet. Data can also be conveniently uploaded via the two integrated USB 3.0 front connections.

- ✓ Compact Mini-ITX housing made of aluminum
- ✓ Integrated cooling fins for heat dissipation
- ✓ Wall mounting via standard rails
- ✓ Two USB 3.0 front ports

Specifications

Motherboard	Mini ITX
Maximum board dimensions WxD: 170mm x 170mm , 6.7" x 6.7"	
Max. drive bays	5,25" external: 0 3,5" external: 0 3,5" internal: 0 2,5" internal: 2
Front connectors	USB 3.0: 2
Cooling system	-
Control elements	Power button
LED	Power HDD activity
Power supply	Mini-ITX PSU
Material	Aluminum
Max. CPU cooler height	43mm
Packing units (VE/VPE/PAL)	1/6/120
Warranty	24 Months
Article number	88887372
EAN-Code	4260455647618
Scope of delivery	Screw Set Wall mount Four feet Manual (englisch) Mounting bracket for IP-3 Mini-ITX-PSU 120W
Features	Possibility on the back for 1x serial port Possibility on the back for 1x WLAN Possibility for optional USB 3.2 Type C socket VESA mount optional (Art. 88885468)
