

## **PDU SD-1688**

The PDU (**P**ower **D**istribution **U**nit) **SD-1688** as a follower of the approved SM-1688 is a switchable multiple socket outlet for 19" mounting into server racks. Manageable by Web-Interface (HTTP/HTTPS) or SNMP.

All eight outlets are switchable by remote access and pass the information of current consumption and voltage as well. Supports up to eight users and group function. Build-in IP address filter. User authentification by Radius. Outlets can operate time-controlled or event-based by alarm (Ping function). Notification by E-Mail (POP/SMTP) or by alarm.

The display shows the IP-address and if a sensor is connected also temperature and humidity.

Up to two sensors can be connected to the **SD-1688** to monitor temperature and humidity by remote access.

Connection	Power In (C20): Power Out (C13): RJ11 (PDU Bus): RJ45 (LAN):
Controls	Automatic cuto
LED / LED Display	Powe Lir Ranc
Material	1,2mm ste
Dimension (h/w/d)	44,5/432/228mi
Package dimension (h/w/d)	155/480/320mi
Net weight	3,055kg
Gross weight	3,850kg
Packing unit	1 pc
Warranty	24 month
Article number EAN-Code	8888738 426045564809
Scope of delivery	Mounting k Cable C20/C19 (2n
	"PDU Utility", englisches manual on C
Merkmale	Current-, Voltage- and Power monitorir Webinterfac
	HTTP, HTTPS, SSHv2, TLS1.2, IPv4, IPv SNMP (V1, v2, v3), DHCP, UDP, PFC, Radiu Adjustable alarm function
	Webinterface in English, German, Frenc Spanish, Russian, Czech, Arabic, Persian
	Chines Ortional: Concerning Terroreture
	Optional: Sensor for Temperature ar Humidity (Article: 88887077
	Max. Input 16 Max. Output 16A (Tota Max. Output per socket 10
