Model: BP-4724-NVMe 12-port

Art.: 88887408

This 12-port server backplane is the ideal solution for high-performance data storage in server and workstation environments.

It supports SATA, SAS and NVMe interfaces for maximum flexibility and speed in data transfer. Perfect for applications where both high capacity and speed are required, such as databases, virtualization or media processing.

With this versatile backplane for servers, you get a future-proof and powerful solution for your storage requirements. Benefit from compatibility with modern interfaces and easy handling during operation.

The top row supports SATA/SAS/NVMe, both bottom rows support SATA/SAS.

Features

12-fach Backplane for SATA, SAS and NVMe
Bootable
