

The **KVM AS-91xx HLS** series consists of a professional KVM console with extendable keyboard unit and 19" TFT LED monitor. The console is mainly used in server cabinets in which one or more servers are installed, which can be operated centrally via the **KVM AS-91xx HLS** thanks to the integrated switching option.

The integrated password protection also prevents access to keyboard and monitor and additionally protects your servers from unauthorised operation.

The console is connected to the servers via the supplied system cables HDMI/USB to HDMI/USB.
